

iPads at Mossfiel PS in 2017

Do we need iPads?

Will they be used?

iPads will be a part of the learning programs for all Year 1 - 6 students from the start of the school. Foundation students will commence their iPad journey from term 3.

Staff will receive new training for each of the individual apps and their effective implementation in the classroom.

What's the new app list?

There is no app list. Only a limited number of apps will be needed.

Apps to download?

Is it going to be hard?

No need to worry. Next year when the iPad is reconnected to the school network, it will automatically install all the necessary apps.

How much will the apps cost us?

Next year some of the apps that will be used are paid or subscription apps.

Don't worry, the school budget and school fees will fund these apps for all students with an iPad connected to the school network.

Running out of space?

Worried about storage capacity?

As of the end of this school year, all current school apps can be deleted.

The apps are not removed from the iTunes account and can be downloaded again at anytime.

Questions welcomed

Changes will commence early 2017
